

Marine Systems Diploma Course

Spring 2019 Required and Recommended Book List

Several copies of the books listed below are available for checkout from the School's library. It is not required that student purchase books. Students may also borrow books from the school library or the public library. Please have a copy of the required books before the program start date.

Be sure to get the Fourth Edition of *Boatowner's Mechanical and Electrical Manual*, because there have been major revisions since the Third Edition.
